This is strategically important position within our engineering team. We are looking for Mid/Senior Java Web Developer to join our Yerevan team.

You will be expected to directly work with our IT Operations Head in Yerevan & CTO in Geneva being involved in new features designs & execution with 360-degree view on products and operations. The prospective candidate will also be expected to be involved in business continuity exercise for existing applications.

THE IDEAL CANDIDATE SHOULD HAVE

- Extensive working experience as a Java developer in J2EE using any of the following products: Spring, Spring boot, Hibernate, Elasticsearch, RabbitMQ;
- Good understanding of OOP programming principles and design patterns;
- Working experience in MySQL or similar Relational DBs;
- Working experience in NoSQL databases;
- Knowledge in TDD principles is a plus;
- Good knowledge of English;
- Strong decision-making, problem-solving, and analytical skills.
- DevOps knowledge of any level is a plus.

JOB RESPONSIBILITIES

- Participate in all phases of software development life-cycle
- Produce and maintain clean, high-quality code;
- Work as a part of a dynamic team throughout the software development life-cycle;
- Deliver results within an Agile methodology;
- Perform code reviews and implement software development best practices;
- Good team player;
- Work independently as well as in small teams.

REQUIRED QUALIFICATIONS

- Bachelor's degree in Computer Science, Computer Engineering;
- 4+ years of extensive and meaningful software engineering experience in Java
- Profound insight of agile software development methodologies
- Profound insight of all aspects of the software development lifecycle: design, functional and technical requirements, coding, debugging, testing, release, and operational support

WHAT WE OFFER

- Competitive salary;
- Full health care coverage;
- Flexible vacation and day-off policy;
- A possibility to grow within a growing company with expertise on Risk & Compliance
- First-class training and experience in understanding the regulatory and practical framework of European banking operations and associated FinTech products;
- Creative and cozy office at the center of Yerevan.

HOW TO APPLY

Interested candidates should send their CVs to jobs2@polixis.com with the subject line **“Mid/Senior Java Engineer”**. Please, kindly note that only shortlisted applicants will be contacted.

Please, also note that this is a full-time position and cannot be combined with any other positions.
